Project Description

Select Language ▼ | Tweet | Like 0

In & around Goa, there are lots of school dropouts. Thereafter they are lost in this world and either remain unemployed due to lack of education & skills or else get some small type jobs.

In order to provide these school dropouts with a platform of being skilled, we are providing them adequate vocational training viz courses in Electrical wiring, Plumbing, Hospitality (F&B, Housekeeping, Kitchen), Home Nursing, Aircontioning & refrigeration, Welding/fabrication, carpentary, etc.

As of now, under this concept there are 3 institutes in Goa. However these institutes lack the necessary training equipements for skill training which kind of hampers the total learning.

Also to get accrediated & cources certified by Govt. Departments, specific kind of equipements need to be in the institutes to facilitate the training. Only then will Govt. recognise the Vocational courses & the trainees.

Improving adult literacy

This project provides an adult literacy program to a rural village.

Our project teams in Australia and New Zealand partnered to deliver teacher training and literacy education for the village of Spring Hill, Australia. A vocational team of four New Zealand educators are training 10 retired teachers and tutors in towns adjacent to Spring Hill to deliver an adult literacy program. Part of the program included visits to the State Library of New South Wales. The project will provide literacy training to over 300 adolescents and adults in the village, allowing them to pursue job opportunities in the area.
