

# GLOBAL GRANTS

# LEARNING OBJECTIVES

- Identify the traits of a global grant
- Know what types of activities are funded by global grants
- Understand how to partner with clubs and other organizations
- Understand how to design and apply for global grants

# GLOBAL GRANTS

- Align with an area of focus
- Respond to a community need
- Include active community and Rotarian participation
- Strengthen knowledge, skills, resources
- Have long-term, sustainable benefits
- Have measurable results
- Have a budget of at least \$30,000

# AREAS OF FOCUS

Peace and conflict prevention/resolution

Disease prevention and treatment

Water and sanitation

Maternal and child health

Basic education and literacy

Economic and community development

# BUILDING SUSTAINABLE PROJECTS

- Community participation
- Materials and technology
- Funding
- Knowledge
- Motivation
- Evaluation

# PROJECT PLANNING

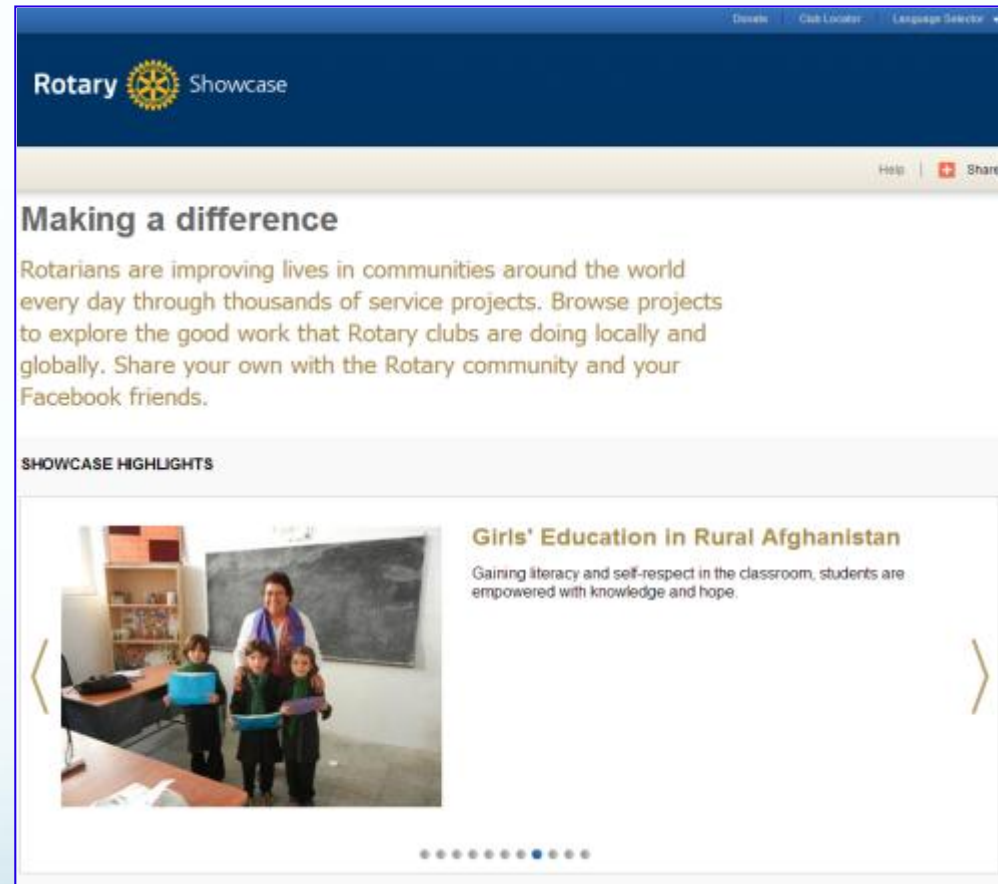

# STEP 1: SET CLUB GOALS

- Define your club's goals
- Use those goals to identify service projects
- Respond to a need in the community

# STEP 2: RESEARCH OTHER PROJECTS

- Visit Rotary Showcase to gather ideas
- Identify potential partner clubs
- Find other clubs with the same goals

# STEP 3: IDENTIFY AND ASSESS COMMUNITY

- Identify the correct community
- Decide the host club's and international club's roles
- The host club conducts the community needs assessment
- Identify areas in which capacity needs to be built

# STEP 4: IDENTIFY PARTNERS

- Use local organization and government partners
- Identify the strengths of all partners
- Define roles to ensure a successful project

## Guatemalan Medical Resources Partnership

To provide free medical, eye, and dental care to 800-1,000 poor rural people in Oliveros, Guatemala.

In 2005, the Mequon-Thiensville Rotary Club started a medical mission in Oliveros, Guatemala at a ranch owned by a member of the M WT M Rotary Club. The aim was to provide free medical, eye care and dental care to the poor rural population. Several members of the Madison West Towne-Middleton Rotary Club participated in the mission. The 4 day mission was a huge success treating hundreds of Guatemalans from the area, some walking for hours to get there. Since then, the mission has continued to provide these services every year in January to 800-1000 people. Each year, 40-45 Rotarians from various Rotary clubs and ancillary personnel continue to volunteer at the mission along with Guatemalan Rotarians and Guatemalan medical personnel. This project encompasses the cooperation of members of several Rotary clubs and has spun off other benefits such as the Oliveros Scholarship Project and the clean water well project.

Select Language ▼

# STEP 5: MEASUREMENT AND EVALUATION

- Put a plan in place before implementation
- Keep measurements simple
- Establish baseline data
- Determine quantitative and qualitative measures

# GRANT APPLICATION PROCESS

1. Club qualifies
2. Club completes the grant application
3. District authorizes application online
4. Rotary Foundation reviews for approval
5. Sponsor is notified of grant status

# GLOBAL GRANT REPORTING

- Report progress within 12 months after funds are received
- Report every 12 months until project is complete
- Submit final report within two months of project completion

# EXAMPLE

A vocational training team travels from the U.S. to Uganda to provide pediatric heart surgeries and train local health professionals.

# EXAMPLE

A student from New Zealand receives a scholarship to pursue an advanced master's degree in public international law (specialization in peace, justice, and development) at Leiden University in the Netherlands.

# EXAMPLE

Equipment and materials supply a pediatric center and establish a training program on public health and nutrition in Togo.

# EXAMPLE

Villages in Guatemala get clean water, latrines, and vegetable gardens.

## How to Use the Grant Center (March 2017) 1

### HOW TO USE THE GRANT CENTER

The Grant Center is the place to go for everything you need to do online for your Rotary Foundation grants, and it keeps all of Rotary's grant-related resources handy for you.

This guide will show you how to:

- ☐ Navigate the Grant Center
- ☐ Apply for a Global Grant
- ☐ Authorize a Global Grant Application (club presidents and district leaders)
- ☐ Enter Global Grant Bank Account Information
- ☐ Report on a Global Grant
- ☐ Authorize a Global Grant Report
- ☐ Apply for a District Grant (district leaders only)

For general information about grants, go to [Rotary.org](http://Rotary.org)'s Grants page.

## Rotary Grants

Welcome to Rotary grants! As Rotary members, we contribute our skills, expertise, and resources to solve some of the world's most serious problems. From providing clean water in local communities to promoting peace worldwide, Rotary grants can bring your project ideas to life.

Use the Rotary grants tool to apply for a grant, track its progress, report on it, and search for other grants in your district.

### Types of grants

The Rotary Foundation offers grants that support humanitarian projects, scholarships, and vocational training teams. Here's an overview:

**Global grants** support large international projects with long-term, sustainable outcomes in one or more of Rotary's areas of focus. They range from \$15,000 to \$200,000.

**District grants** fund smaller-scale, short-term projects that address immediate needs in your community or abroad.

**Packaged grants** fund up to 10 scholarships each year for students in a master's program on water and sanitation at the UNESCO-IHE Institute for Water Education in Delft, Netherlands.

### District qualification

Before applying for grants, district leaders agree to follow the stewardship requirements listed in the memorandum of understanding.

### The lifecycle of a Rotary grant

### Grant Resources

Questions about the grant process? We're here to help, from getting you started to final steps.

Do any of these committee members have potential conflicts of interest? Yes/No

Grant Title: Cervical Cancer Prevention

## Project Overview

Tell us a little about your project. What are the main objectives of the project, and who will benefit from it?

The Prospect/Goshen Rotary Club of Louisville, Kentucky ("P/G"), the Les Cayes Rotary Club of Les Cayes, Haiti ("LCRC"), and CapraCare, Inc., a 501 (c)(3) non-profit organization founded by and run by Haitians ("CapraCare") want to improve the quality of life and health care for the women and children in the Greater Fonfrede Area, which includes both Fonfrede and Les Cayes, Haiti. We plan to reach this goal by a) expanding CapraCare's existing programs to include outreach, educational and support programs related to preventative health care for women and children, with a focus on cervical cancer; b) training personnel to implement and then implementing the See & Treat method of detecting and treating cervical cancer in its precancerous state while it is still treatable, thereby lowering the overall incidence of cervical cancer in the area; c) seeking to obtain and then introducing to pre-teens the vaccine for the HPV virus that causes cervical cancer, eventually leading to the elimination of cervical cancer in the area; and d) employing or using the services of the individuals in the area to fill the roles necessary to help us achieve this goal (collectively, the 'Project').

## Areas of Focus

Which area of focus will this project support?

Disease prevention and treatment  
Maternal and child health  
Economic and community development

## Measuring Success

Disease prevention and treatment

Which goals will your activity support?

Improving the capacity of local health care professionals; Educating and mobilizing communities to help prevent the spread of major diseases

How will you measure your project's impact?

Measure	Collection Method	Frequency	Beneficiaries
Number of medical and health professionals trained	Direct observation	Every year	1-19
Other Total number of pre-screening outreach and educational programs	Direct observation	Every two weeks	20-49
Other Number of participants in each of the pre-screening outreach and educational programs	Direct observation	Every two weeks	20-49
Other Number of women screened through See & Treat each month	Direct observation	Every month	20-49
Other Number of pre-teens vaccinated each month	Direct observation	Every month	20-49
Other Number of women treated each month as a result of pre-cancerous cervical lesions	Direct observation	Every month	1-19
Other Total number of post-screening educational and support programs	Direct observation	Every year	20-49
Other Number of participants in the post-screening educational, referral and support programs each month	Direct observation	Every month	20-49
Other Total number of patients who visit CapraCare's medical clinic for health care for any reason.	Direct observation	Every year	20-49

**Do you know who will collect information for monitoring and evaluation? Yes/No**

**Maternal and child health**

**Which goals will your activity support?**

Improving access to essential medical services, trained community health leaders and health care providers for mothers and their children

**How will you measure your project's impact?**

Measure	Collection Method	Frequency	Beneficiaries
Other Number of women screened through See & Treat each month	Direct observation	Every month	20-49
Other Number of pre-teens vaccinated each month	Direct observation	Every month	20-49
Other Number of women treated each month as a result of the presence of pre-cancerous cervical lesions	Direct observation	Every month	1-19
Other Number of patients visiting CapraCare for medical services monthly	Direct observation	Every month	50-99
Other Number of participants in each of the pre-screening outreach and educational programs	Direct observation	Every two weeks	20-49
Other Number of participants in the post-screening educational and support programs each month	Direct observation	Every month	20-49

**Do you know who will collect information for monitoring and evaluation? Yes/No**

Economic and community development

**Which goals will your activity support?**

Developing opportunities for productive work

**How will you measure your project's impact?**

Measure	Collection Method	Frequency	Beneficiaries
Number of individuals trained	Direct observation	Every six months	1-19
Number of jobs created	Direct observation	Every six months	1-19

**Do you know who will collect information for monitoring and evaluation? Yes/No**

**Location and Dates**

Humanitarian Project

**Where will your project take place?**

**City or town**

Fonfrede

**Country**

Haiti

**When will your project take place?**

2016-09-01 to 2017-12-29

**Province or state**

The Greater Fonfrede Area

## Participants

---

### Cooperating Organizations (Optional)

Name	Website	Location
CapraCare	<a href="http://www.capracare.org">www.capracare.org</a>	P.O. Box 1408 New York, New York 10276 United States

### Why did you choose to partner with this organization and what will its role be?

In November, 2014, P/G contacted CapraCare at the suggestion of a mutual contact who was familiar with CapraCare's long term goal of expanding its menu of preventative health services to women in the Greater Fonfrede Area. Rotarians from P/G spoke with CapraCare's founder and Executive Director, Jean Pierre Louis, during the month of December several times to become familiar with what CapraCare did and hoped to do in the future; CapraCare became familiar with the See & Treat method and consulted with Dr. Steven Papillon in Port au Prince about the need for preventative health care related to cervical cancer in Haiti in general and the Greater Fonfrede Area in particular. Mr. Louis also talked with Jean Yves Olivier, a member of LCRC about this need and the interest of LCRC in working with CapraCare and P/G on this project. In January, 2015, Mr. Louis came to Louisville, Kentucky, the home of P/G, for two days to meet with P/G and educate P/G further about the status of preventative health services for women and children in the Greater Fonfrede Area.

In February, Dr. Muriel Harris, a member of P/G, went to Fonfrede to visit CapraCare's existing community health center so as to become more familiar with CapraCare's operation on the ground, to attend focus groups and to visit with LCRC. After this visit and additional conversations, all parties decided that P/G's and LCRC's desire to help end cervical cancer in Haiti and CapraCare's desire to add preventative health care for women was a good fit for PG, LCRC and CapraCare to work together on the Project.

CapraCare, which was founded by Haitians and is run by Haitians, already operates a small community health center. It already is involved in the community through its outreach and education programs about wellness and through its preventative health services for children. Dr. Papillon provides medical expertise in providing health care to Haitians as well as working with the Haitian Ministry of Health. Mr. Louis, a native of Fonfrede, has a degree in public health and is already familiar with the challenges and opportunities in running and supporting CapraCare. Mr. Louis has knowledge and experience in working with and organizing groups, educational institutions and other organizations to come to the Greater Fonfrede Area to provide preventative health care services for children. Dr. Papillon and Mr. Louis have already provided a wealth of information about the culture as well as the requirements to provide health services in Haiti.

### Partners (Optional)

List any other partners that will participate in this project.

LaGrange Rotary Club, South Oldham Rotary Club and Eminence Rotary Club. These clubs and/or individual club members have all contributed financially to the Project.

#### Volunteer Travelers (Optional)

No.	Name	Email
1	James Haile	jameshaile_@msn.com
2	Muriel Harris	mjharr08@louisville.edu

#### Describe this person's role in the project.

Dr. James Haile, a retired OB/GYN, will train the CapraCare health professionals to administer the See & Treat method and train these professionals to train others to do the same. Dr. Muriel Harris, a professor at the University of Louisville in the area of Public Health, will consult with the Project Prevention Director, the Project Data Manager, trainers and liaisons as well as the members of the LesCayes Rotary Club regarding the status, implementation and success of the various programs, offering suggestions and advice and counsel as needed.

#### Host sponsor confirmation of volunteer travelers

I confirm that the host club or district has extended a travel invitation, fully supports and approves volunteer traveler(s), and verifies that the international travel to the club and/or district is needed to implement the project.

#### Rotarian Participants

##### Describe the role that host rotarians will have in this project.

LCRC, the host club, will be responsible for the following:

1. Provide advice and counsel as needed to CapraCare, P/G, the Project Prevention Director and related trainers and liaisons in developing, implementing and conducting the Pre-Screening Community Outreach Program and the Health Education Program as well as the Post-Screening Health Education and Support programs, including the development and provision of materials.
2. Make regular on-site visits to CapraCare's community health center in Fonfrede during the implementation phase of the Project.
3. Provide a letter of support for the Project to the Ministry of Health and Population, if so requested.
4. Act as a liaison between CapraCare and the Greater Fonfrede Area health community regarding the availability of the services provided by the Project, help promote the various aspects of the Project to the Greater Fonfrede Area, and provide advice and counsel on how best to spread the word about the benefits of the Project.
5. Consult with and provide advice and counsel to CapraCare regarding additional medical professional participants and organizations in the Greater Fonfrede Area interested in becoming involved with the Project during and after its implementation so as to enhance the sustainability of the Project for years to come.
6. Provide advice and counsel as requested to P/G regarding the customs, laws, issues and business requirements that need to be addressed.

##### Describe the role that international Rotarians will have in this project.

P/G will:

1. Take the lead in matters related to the grant application.
2. Manage the exploration of resources for the HPV vaccine.
3. Provide the training necessary to implement See & Treat and the vaccines.
4. In cooperation with CapraCare, procure and manage the logistics involved in initially providing the medical equipment and supplies needed to implement the Project.

Do any of these committee members have potential conflicts of interest? Yes/No

5. Manage and provide an oversight necessary related to the funds received for the Project.
6. Work with Capra Care and the Project Prevention Director in developing the Pre-Screening Community Outreach Program and the Health Education Program as well as the Post-Screening Health Education and Support programs, including the development and provision of materials.
7. Work with CapraCare and the Project Data Manager in the development of programs designed to track and measure the goals of the Project.

## Budget

### What local currency are you using in your project's budget?

The currency you select should be what you use for a majority of the project's expenses.

Local Currency	U.S. dollar (USD) exchange rate	Current Set On
USD	1	

### What is the budget for this grant?

List each item in your project's budget. Remember that the project's total budget must equal its total funding, which will be calculated in step 9. Every global grant includes a match of at least \$15,000 from The Rotary Foundation's World Fund. Project budgets, including the World Fund match, must be at least \$30,000.

#	Category	Description	Supplier	Cost in USD	Cost in USD
1	Supplies	Medical Equipment and Supplies	Supplies Over Seas	12500	12500
2	Supplies	Shipping of Supplies	Roseaux Express Shipping	7500	7500
3	Project management	Project Manager	Dr. Papillon	6500	6500
4	Monitoring/evaluation	Project Data Manager	Local Sources	2500	2500
5	Personnel	Medical Health Trainer and Clinical Nurse	Local Sources	3500	3500
6	Training	Project Prevention Director	Local Sources	2500	2500
7	Training	Education Trainer	Local Sources	2400	2400
8	Training	Community Outreach Liasons (3)	Local Sources	5400	5400
9	Travel	Implementation and Facilitation Trip	P/G Rotary Club	9000	9000
10	Equipment	Refrigerator	Local	1000	1000
11	Training	Prescreening Workshop Materials (40 weeks) including written materials, snacks and water	Project Prevention Director and Local Sources	2000	2000
12	Training	Post-Screening Health Workshops (3	Project Provention	5000	5000

		cycles) materials including written materials, hygiene kits, snacks and water	Director and Local Sources		
13	Training	Post Screening Support Workshops (40 weeks) including written materials, snacks and water	Project Prevention Director and Local Sources	1000	1000
14	Monitoring/evaluation	Data Support Person	Local Sources	1200	1200
15	Project management	Contingency Fund	Variable	3583	3583
16	Supplies	Vinegar	Local	100	100
17	Signage	Signage in Health Center	MotoFoto	75	75
Total budget:				65758	65758

## Funding

Tell us about the funding you've secured for your project. We'll use the information you enter here to calculate your maximum possible funding match from the World Fund.

#	Source	Details	Amount (USD)	Support*	Total
1	Cash from Club	Prospect/Goshen	14,250.00	0.00	14,250.00
2	Cash from Club	La Grange	6,500.00	0.00	6,500.00
3	Cash from Club	South Oldham County	1,500.00	0.00	1,500.00
4	Cash from Club	Eminence	915.00	45.75	960.75
5	Cash from Club	Cayes	100.00	0.00	100.00
6	District Designated Fund (DDF)	6710	15,455.00	0.00	15,455.00

\*Whenever cash is contributed to the Foundation to help fund a global grant project, an additional 5 percent is applied to help cover the cost of processing these funds. Clubs and districts can receive Paul Harris Fellow recognition points for the additional expense.

How much World Fund money would you like to use on this project?

You may request up to 27,088.00 USD from the World Fund.

27038

### Funding Summary

DDF contributions:	15,455.00
Cash contributions:	23,265.00
Financing subtotal (matched contributions + World Fund):	65,758.00

**Total funding:** 65,758.00

**Total budget:** 65,758.00

## Sustainability

### Humanitarian Projects

#### Project planning

##### Describe the community needs that your project will address.

As shared by CapraCare with our Rotary Club and as documented in the December 15, 2014 Fact Sheet issued by the ICO Information Center on 'HPV and Cancer, Human Papillomavirus and Related Cancers,' Haiti has one of the highest reported incidence of cervical cancer of any country in the world, with 94 cases per 100,000 population. Haiti has a population of 3.45 million women ages 15 years and older who are at risk of contracting the HPV virus which causes cervical cancer. Cervical cancer is the leading cause of cancer death in Haitian women with an estimated 1,500 deaths annually. Most women in Haiti, including the women of the Greater Fonfrede Area, have never been screened for cervical cancer as there are no pap smears--and no money to pay for them. As witnessed by CapraCare and attested to by Dr. Steve Papillon in his aforementioned attached letter, women and children in this area face many individual, social, and environmental barriers to accessing care, prevention and supportive services due to lack of access, unemployment, low or no education, stigma and other basic needs.

##### How did your project team identify these needs?

##### How were members of the benefiting community involved in finding solutions?

##### How were community members involved in planning the project?

CapraCare was interested in expanding its menu of preventative health services to include preventative care for women. Through a mutual contact, CapraCare learned that P/G was interested in working with organizations in Haiti to end cervical cancer there and so reached out to PG; CapraCare then reached out to LCRC who expressed an interest in helping CapraCare and P/G to achieve this goal .

In February, 2015, Capra Care held a series of focus groups/educational forums, attended by Dr. Muriel Harris, a member of PG, to determine if the women and children of the Greater Fonfrede Area would avail themselves of such services. The overwhelming response was yes. Since that time, CapraCare, LCRC and P/G have worked to develop this Project. As CapraCare is the only provider of any kind of health services in Fonfrede, and with the implementation of this Project, will be the only provider in the Greater Fonfrede area of the See & Treat method and HPV vaccine, this Project fulfills CapraCare's initiative to provide better preventative health care for women and children in this area.

#### Project implementation

#	Activity	Duration
1	Develop and begin implementation of a Pre-Screening Community Outreach Program to spread the word about the availability of preventative health care services for women and children	Three to Six months
2	Develop and begin implementation of a Pre-Screening Health Education Program to include workshops and materials to educate the community's women about prevention of cervical cancer, the need to be tested and the need to have	Three to Six months

their children vaccinated

3	Develop and begin implementation of Post-Screening Health Education and Support programs to include a) education about general healthy living including healthy eating, exercise and healthy life choices so as to improve the quality of life; and b) referrals to appropriate providers for additional care, if needed, and support for those whose health results indicate such a need exists	Three to Six months
4	Explore and seek opportunities to obtain the HPV vaccine for little or no cost so as to introduce the vaccine to the pre-teens of the Greater Fonfrede Area.	One year
5	Develop and begin implementation of a Data Collection Program to measure the various Project outcomes, including: a) the number of participants in the pre-screening outreach and education programs; b) the number of women screened and pre-teens vaccinated; c) the number of women treated as a result of the presence of pre-cancerous lesions; d) the number of women diagnosed with cervical cancer; e) the number of participants in the post-screening educational, referral and support programs; f) the number of educational and medical professionals trained to implement the various aspects of the Project; and g) the number of individuals contracted with or employed as a result of the Project.	Three to Six months
6	Equip and outfit CapraCare's Community Health Center to allow for the implementation of the See & Treat Method and vaccine program (when available) as well as the on-going administration of both.	Three to Six months to equip; life of the grant for on-going administration
7	Plan for and then participate in an Implementation and Facilitation trip to the Greater Fonfrede Area in order to participate in and help with the final set up for and initial provision of the See & Treat method and vaccine.	Three to Six months for planning; one week for trip.
8	Train Dr. Steve Papillon, CapraCare's medical director, to both administer the See & Treat method of detecting cervical cancer and to train others to do the same.	One week
9	Train Dr. Papillon and other members of CapraCare's medical team to administer the HPV vaccine for pre-teens.	One Week
10	Ongoing Administration and facilitation of Community Outreach and Pre- and Post- Screening Health Education and Support Programs	Life of the Grant, approximately twelve to eighteen months
11	Ongoing management and operation of the Project.	Life of the Grant, approximately 12 to 18 months
12	Management, collection and entry of data related to the Project as well as the preparation of related reports.	Life of the Grant, approximately twelve to eighteen

		months
13	Ongoing training by Dr. Papillon of Capra's care medical team and, eventually, other interested medical personnel in the Greater Fonfrede Area	Life of the Grant, approximately twelve to eighteen months

Will you work in coordination with any related initiatives in the community? Yes/No

Please describe the training, community outreach, or educational programs this project will include.

How were these needs identified?

What incentives (for example, monetary compensation, awards, certification, or publicity), will you use, if any, to encourage community members to participate in the project?

List any community members or community groups that will oversee the continuation of the project after grant-funded activities conclude.

Budget

Will you purchase budget items from local vendors? Yes/No

Did you use competitive bidding to select vendors? Yes/No

Please provide an operations and maintenance plan for the equipment or materials you anticipate purchasing for this project. This plan should include who will operate and maintain the equipment and how they will be trained.

Describe how community members will maintain the equipment after grant-funded activities conclude. Will replacement parts be available?

SOS provides replacement parts for the equipment it furnishes. CapraCare already has electricity and a generator. A refrigerator will be needed to store medical supplies. The medical staff at CapraCare are capable of maintaining and operating the equipment.

If the grant will be used to purchase any equipment, will the equipment be culturally appropriate and conform to the community's technology standards? Yes/No

After the project is completed, who will own the items purchased by grant funds? No items may be owned by a Rotary district, club, or member.

CapraCare will own all equipment and supplies.

## Funding

Have you found a local funding source to sustain project outcomes for the long term? Yes/No

Will any part of the project generate income for ongoing project funding? If yes, please explain.

## Authorizations

---

### Authorizations & Legal Agreements

#### Legal agreement

In consideration of receiving this global grant from The Rotary Foundation (TRF), the Sponsors acknowledge and agree that:

1. The Sponsors have each received and read a copy of the Terms and Conditions for Rotary Foundation District Grants and Global Grants, which are incorporated into and made part of this Agreement and will abide by all terms and conditions set forth therein.
2. The total financing amount of this Agreement is the U.S. dollar amount listed in the grant announcement letter. Any amount received in excess of the approved grant contributions will automatically be counted as general irrevocable giving to TRF and will not be applied to the global grant.
3. All global grant funds provided by TRF shall not be used for any purposes other than those approved by TRF. TRF shall be entitled to receive reimbursement for any and all global grant funds deposited with, held by, or otherwise contributed to either or both of the Sponsors that are spent for unapproved purposes as well as any funds used to benefit a Rotarian or Rotary entity. In addition, TRF reserves the right to audit the grant's financial activities at any time and suspend any or all payments if in its sole discretion progress is not considered to be satisfactory.
4. The Sponsors will keep TRF informed on the grant's progress by submitting progress reports every twelve months during the implementation of the grant activities. The Sponsors will immediately inform TRF of any significant problems with the implementation of the grant or deviations from the planned activities, including deviations in the budget. The Sponsors will submit the final report with complete financial accounting within two months of the grant's completion.
5. The Sponsors shall defend, indemnify, and hold harmless Rotary International (RI) and TRF, including their directors, trustees, officers, committees, employees, agents, associate foundations and representatives (collectively "RI/TRF"), from and against all claims, including but not limited to claims of subrogation, demands, actions, damages, losses, costs, liabilities, expenses (including reasonable attorney's fees and other legal expenses), awards, judgments, and fines asserted against or recovered from RI/TRF arising out of any act, conduct, omission, negligence, misconduct, or unlawful act (or act contrary to any applicable governmental order or regulation) resulting directly or indirectly from a Sponsor's and/or participant's involvement in grant-funded activities, including all travel related to the grant.
6. RI/TRF's entire responsibility is expressly limited to payment of the total financing amount. Neither RI nor TRF assumes any further responsibility in connection with this grant. Neither RI nor TRF is responsible for unfunded travelers.
7. TRF reserves the right to cancel this Agreement without notice upon the failure of either or both of the Sponsors to abide by terms set forth in this Agreement and the Terms and Conditions for District Grants and Global Grants. Upon cancellation, TRF shall be entitled to a refund of any global grant funds, including any interest earned, that have not been expended.
8. The failure of the Parties to comply with the terms of this Agreement due to an act of God, strike, war, fire, riot, civil unrest, hurricane, earthquake, or other natural disasters, acts of public enemies, curtailment of transportation facilities, political upheavals, acts of terrorism, or any reason beyond the reasonable control of the Parties shall not be deemed a breach of this Agreement. In such an event, the Agreement shall be deemed terminated and Sponsors shall refund all unexpended global grant funds within 30 days of termination.

ADDITIONAL AGREEMENT TERMS FOR GLOBAL GRANTS INVOLVING FUNDED

Remember you can contact the Grants Chair, The DRFC or Rotary Contact Center if you need any help.

# Thank you. Any Questions?
