Club Management Systems

A Rotary or Rotaract club can simplify its recordkeeping by using one or more club management vendors to link its own membership records to Rotary International's database. A district or zone may also use a vendor to view club data if the club allows that vendor access to club information. (Note that, though more than one vendor may be authorized to view a club's data, only one may update the data.) First, your club must be a customer of a club management vendor. Find a list of the vendors that provide database services on the [Club Management Systems & Website Providers](#) page of My Rotary. Then, your club can allow the vendor access to club data by choosing the appropriate link below.

Tell us which vendor you're allowing to view club data
