Family Month

December, in the Rotary calendar just as in the civil calendar, is Family month.

The Rotary family, it is of course clubs but also well beyond, the people who are dear to us.

I will never forget this exceptional opportunity that was given to me by the Rotary Club of Stabroek, during my official visit: on Friday, December 13, the members of the club provided Roxanne Winfield, 11 years after the assault she suffered in Camp Street Prison (Guyana) that she has refused to hand over the keys of the cells to 5 dangerous criminals.

With courage, she has survived, and can now, taking into account consequences of its aggression,

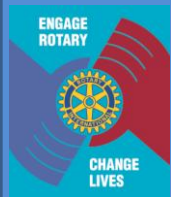

living in a adapted house.

This month of December allows me to close my program of official visits (except those of islands of St. Kits and Tobago I will visit in January).

You will understand that it is with great pleasure that I will spend the end of the year 2013 with my children.

I wish you a Merry Christmas and Happy New Year, and invite you in 2014 to engage Rotary to change live as our Stabroek friends

Hervé HONORE
Governor 2013-14
honoreh@wanadoo.fr

Council of Legislation 2016

I would like to inform you on [how to propose](#) resolution or amendment for Council of Legislation 2016. All clubs and districts are authorized to submit projects which must be **received** at Rotary International Headquarters no later than **December 31, 2014**. No project will be accepted beyond that date and no derogation to this rule will be granted.

Beginning this year, the projects must be submitted via the [online form](#). A printed form is also available on request for those with no Internet access.

Clubs and districts must submit a separate form for each project. The draft amendments, a Word document showing the changes to be downloaded with the form. These documents are available on www.rotary.org/fr/col.

A draft resolution, for the clubs and districts must use the [resolution model](#) and download it with the form.

To be considered as being in good form, any project submitted to the Rotary must include a statement of the reasons not to exceed 300 words and identifying the problem or the situation that the project aims to correct and the solution provided by the project. Any project submitted without statement of reasons shall be considered non-compliant and will not be sent to the Council of legislation..

Finally, please note that the projects must be approved by resolutions during the district conference or a district meeting, or by a vote by mail before being submitted to the Council. The Governor may submit the project itself and confirm that

the project was approved by the district or, if the project is not submitted by the Governor, confirm that the information provided are correct by e-mail to council_services@rotary.org.

For more information about the Council of legislation and the submission of projects, see the Rotary Web site at www.rotary.org/fr/col and the following documents:

[Council of legislation 2016 - News](#)

[Establish a project](#)

Webinar: Lifecycle of a Service Project (Part 3) -- Acquiring Resources

[28 January, 10:00-11:00](#)
 Chicago time (UTC-6)
 (English)

[28 January, 18:00-19:00](#)
 Chicago time (UTC-6)
 (English)

[Check your local time.](#)

In this third webinar of the five-part series, you will:

- Learn about how to find partners -- other clubs or organizations -- with which to collaborate to increase the impact of your project
- Find out how to secure funding, volunteers, and other needed resources for your service project
- Become familiar with the Rotary resources available to help make your service project a success

Register now for this webinar. Sessions in [French](#), [Japanese](#), [Portuguese](#), and [Spanish](#) will be held in February.

[View slides](#) and [watch a recording](#) from part 2 in this series.

World Polio Day 2013

A significant amount of media coverage was generated on World Polio Day 2013, including articles focusing on Archie Panjabi and her work with Rotary on [Windy City Live](#) and [Huffington Post Live](#), an interview with Dr. Aylward in the [Journal of the American Medical Association](#), as well as coverage in the [Voice of America](#), [Radio France International](#), [Pakistan Today](#), [Die Welt](#), Wall Street Journal's [India Real Time](#), among others.

If you haven't already, I encourage you to watch [World Polio Day: Making History](#) and share it, along with the [World Polio Day infographic](#), with others. And please start thinking about creative ways Rotary clubs can build off of our success this year and make World Polio Day 2014 an even more effective platform to carry the End Polio Now message.

Clubs in action : DG Visits

November was a month of full activity for the District Governor

Dominica Visit (31/10 to 3/11)

Conducted at no load, it has allowed me to meet the new Rotary Club of Portsmouth as well as to attend the charter anniversary of the Rotary Club of Dominica. Punctuated by visits of projects and sites, this visit allowed me to see the importance that Dominica' President and Prime Minister give to Rotary. Finally, accompanied by my two children, it was a pleasure to meet Interact and Rotaract clubs as well as PDG Earl Johnson! Thanks AG Marvlyn.

Trinidad Central Visit (7 to 11/11)

With a well done program from AG Wayne, Trinidad Central clubs visit has been very informative. This meeting with the Interact clubs where nearly a hundred of young people have shown me the importance of Rotary for youth programs has my favor. It was also a occasion to have a working session with DRR Thalia Bernard.

Thanks for the joint meeting which will remain engraved in my memory, masterfully led by Debbie.

Still a highlight: I was able to share a breakfast with PDG Ruppert Cheekes and PDG Victor Pilgrim!

Antigua et Montserrat Visit (17 to 20/11)

AG Errol Samuel made me participated for the first time in a live radio station program... in English! It was early in the morning, I hope have quite woken up listeners!

There again, meeting with PDG Malcolm Edwards.

The two clubs of Antigua have allowed me to see how they change lives.

As for Montserrat, hats off! Excellent integration of former Rotaractors in the Rotary Club: Ivan Super!

Guadeloupe Visit (25 to 29/11)

And if I told you that Guadeloupe has surprised me once again!

Thanks for your high attendance to the joint meeting and during all my schedule.

Rotary moment with PDG Harry Louis and Standing Ovation to AG Dominique!

Many districts and clubs are already making a difference. They've either opted to fill local food pantries, served hot meals in churches or carried out community food drives. Many have participated in food packaging drives. What if every club in zones 33 and 34 were doing the same? What would be the impact?

The **Rotary Has Heart** project is a means to a significant end – clubs would turn their attention to a problem existing in almost every community in the United States. Ask yourself – can my club do something to make a difference? It doesn't take a committee to discuss it. It takes you to speak up at a board meeting or stand up at a regular weekly meeting and rally the club members to help a local food pantry, donate to a local non-profit organization or church which assists the poor, etc.

RIVP Anne chose Valentine's Day as a focal point and not THE day of whatever your club chooses to do. She wants to know what your club has done. The voices of hundreds of clubs across our region may develop into a Rotary-wide conversation which could be ignited through Rotary Showcase (use the hashtag #rotaryhasheart)

Next time you see children at a corner waiting for a school bus you will feel good knowing that you may have helped the one child in that group who may have been going to school hungry that day.

Jump on board today. [CLICK HERE](#) to get full details.

Recognize Rotaract !

Help Rotary recognize the good work that Rotaract clubs are doing by sharing the link to the [Rotaract Outstanding Project Awards](#) with a club in your area. Nominations are due by **1 February**. [Read about the 2013 project winners](#) and [watch a video chat](#) with members of the winning clubs.

An exemple to promote Major donor gifts program by The Rotary Clubs of Grenada

In an attempt to promote/solicit the Major donor gifts program, The Rotary Clubs of Grenada held a Rotary Foundation Dinner, 9th Nov 2013 with our PDG David Edwards as guest speaker on the work of the Foundation. It was held under the Distinguished Patronage of our Governor General Dame Cecile La Grenade for approximately 175 patrons (Rotarians, Partners-in-Service, Business Executives & Friends of Rotary), at which time they used the opportunity to circulate PP Malcolm's press release.
