Creating Peaceful Spaces

Conflict is a normal and natural part of everyday life and it impacts all types of relationships. We each must deal with conflict in one form or another. From a simple disagreement to a full-blown argument, conflict takes many shapes and sizes. Responses to conflict varies but it may potentially evoke the strongest of emotions escalating to all forms of violence. How best we deal with conflict and resolve differences is a key factor in building and promoting peace - one of Rotary's main areas of focus across the globe. This session will help develop one's ability to understand, manage and express the social and emotional aspects of our lives in wholesome and positive ways as we learn how to create peaceful spaces to better accommodate conflict resolution and facilitate positive change and peace.
