

The Rotary Club of Central Port of Spain (RCCPOS) and the Rotary Club of West Ottawa (RCWO) are collaborating to provide educational support to the children located on the Beetham Estate in Trinidad, W.I.

The Beetham Estate is a well known crime hot spot just outside the capital city of Port of Spain, with limited opportunities for its residents. This Rotary collaboration builds on the assistance provided over decades by RCCPOS primarily to the All in One Child Development Centre (a pre-school) and the Each One Teach One school.

The project will span three years, from February 2020 to June 30th 2022, with projects including infrastructure maintenance/refurbishment, educational materials (computers, library materials), kitchen appliances, stationery and food hampers.

President of the RCWO Caroline De Witt, is originally from Trinidad and Tobago, and after the devastation of the recent volcano eruption in St Vincent and the Grenadines, reached out to see how her club could help. After an appeal to her members and the wider diaspora, they made a donation of USD 11,453 towards the Rotary Disaster Relief.

Rotarians and Rotaractors in St Vincent, and by extension, the people of SVG, extend their heartfelt appreciation to the Rotarians in West Ottawa for their generosity and support.
